## FISHER FAMILY

### SCOPE AND CONTENT

To determine the time span of this collection one has to look at the collection in different categories. Series I, II, and III, family or personal files, range in years from approximately 1919 – 1990's. Series IV and V, family genealogical research information, of course covers many years. Series VI is a picture collection including pictures from early years up to recent.

The collection includes mostly personal and professional materials for the individual family members and the research information collected while studying their personal family genealogy.

A more detailed content of each of the series and sub-series follows.

### INTRODUCTION

This collection contains information about the Fisher Family. Thomas Guy Fisher and Lillian Chapman Fisher had five children, Ilo, Betty, Mary, Ed, and Carol. Most of the collection is made up of personal and professional files from Carol Fisher and Ilo Fisher, however, it also includes some information and family archival material from other siblings and extended family. Included in this collection is an entire sub-series of their personal family research and genealogy materials. The names found in these specific materials have been indexed to facilitate genealogical research.

There are 6 series in the collection, 2 of which contain sub-series. The Carol Fisher series contains 4 sub-series. The Ilo Fisher series contains 5 sub-series. The other four series do not have sub-series. The collection fills 19 boxes. There are 16 record size boxes which include 14 filled with files (2 are photo albums), 1 containing Betty Fisher's retirement scrapbooks and 1 box of books. There is 1 oversized box, and 3 document boxes which include 1 box of video and audio tapes and 2 boxes of picture files.

## **VI. FISHER PICTURE COLLECTION**

This series contains pictures, picture albums, and slides collected by the Fisher Family. Some of the pictures are identified and some are not. The pictures that have been left in the albums are mostly family and home pictures. A majority of these are identified on the back and even have some of the negatives inserted behind the photos. The photos in files 39 and 40 were taken from two loose pages of an album. The photos were kept together as a result. They are identified on the back. The slides have not been verified, but it is believed that they are pictures of a trip that Ilo and Carol Fisher took to England.

The photos have been divided by size, subject, and media – black and white or color.

There are 2 boxes of photo albums (files 1-9 and 10-16). The box containing files 10-16 houses the slides. There are also two boxes of files of pictures (files 17-32 and files 33-62).

There are 62 files.
